Roman Catholic Church
PO Box 997
Cutchogue, NY 11935**

August 2014

Dear Parishioners and Guests,

In 2019, Our Lady of Ostrabrama Church will mark its 100th anniversary. Over time, each generation has built on the strong foundations established in those early years of our church. Thanks to the generosity of our parish community, we have been very fortunate to accomplish many significant capital projects throughout our history. We now look ahead to do what is necessary to respond to the needs of our parish.

Our Lady of Ostrabrama Church would like to begin a construction project to ensure access into and use of the church and restrooms for all parishioners and visitors. Our plans include: installation of an elevator with a vestibule and, possibly, a glass enclosure; renovations of the restrooms, including making them handicap accessible; and repair of the drains in the church parking lot. The elevator will provide entry into the church and into the church hall from the parking lot level.

The estimated cost of this project is \$200,000. To guarantee its successful completion, the church is asking for your financial help. We realize that raising \$200,000 will take a concentrated effort on the part of the entire community. As parishioners, you must decide what amount is appropriate to contribute, because the financial obligations of each family are different.

Thank you in advance for your support of this project and our parish.

Sincerely,

Rev. Stanislaw Wadowski
